Service Description

Quality momentum stocks of Prices below Rs.100

Stocks will be selected based on Technical Momentum and Fundamental Turnaround

5-10 Stocks in a Month

Fundamentally researched mid and small-stocks

Suitable for medium-term investors

Investors should invest equally in all stocks

The service process is based on Profit Calls

Rationale: Stocks from small and micro-cap are picked based on the fundamental turnaround, valuations, and expected growth of financials. The stocks are carefully selected based on multiple factors like interest in FII, DII, breaking managerial news, or any other positive news around the company
